...or create a new repository on the command line

```
echo "# SoftwareEngineer" >> README.md
git init
git add README.md
git commit -m "first commit"
git branch -M main
git remote add origin https://github.com/kathy20316/SoftwareEngineer.gi
git push -u origin main
```

...or push an existing repository from the command line

```

git push —u origin main
```
